## City of Washington Solid Waste Division

# Old Roll Out Carts Being Reused as Yard Waste Containers

The Solid Waste Division has a collection of old household solid waste roll out carts that would be suitable for the collection of yard waste. These carts may have holes in the bottom or a lid that doesn't fit quite right; but would be great for yard debris. These carts are available for residents to purchase for \$10 each and will make the ease of gathering and collecting yard waste easier for the residents and city crews.

Please call 975-9302 for information on the purchase and delivery of a "Yard Waste" container.
